

Thrapston
DENTAL CENTRE

WELCOME

At Thrapston Dental Centre we offer dental care in a relaxed and friendly environment. Our goal is to make sure you are as comfortable as possible while providing the best in modern dental care.

WELCOME TO THRAPSTON DENTAL CENTRE

We are easily accessible for those in Thrapston, Peterborough, Corby and surrounding villages, we offer dental care to patients of all ages.

Thrapston Dental Centre was originally founded in 2012, and we have worked closely within the local community and pride ourselves on providing the highest quality of care possible to our patients.

We are a small friendly private practice; which enables us to build relationships with our clients. Our team includes highly skilled and experienced Dentists trained in the latest techniques. We use state of the art equipment to ensure your dental needs are always met and you receive the best possible treatment. We are proud of our dedicated, progressive team and our patient-centred approach to dentistry.

Here at Thrapston Dental Centre we offer a variety of dental services from General dentistry to more expert services such as periodontics, dental implants and Orthodontics.

We make on-going investments in the most up to date dental equipment and technology available. We also work closely with a variety of dental laboratories, which allows us to make sure that any restoration treatments such as crowns or dental Implants are made to the highest standard. At Thrapston Dental Centre, we believe that any investment you make in your smile should not only function well, but also appear natural and attractive.

DENTAL TREATMENTS

At Thrapston Dental Centre we're proud to offer an extensive range of treatments. Our services are patient-centred, with your comfort in mind. Although we can provide complex, state of the art solutions to your issues, the treatments we're most proud of are often those which are simple, cost-effective and time-saving.

Our General Dentistry services include:

- Restorative Procedures: White Fillings, Porcelain Crowns, Bridges and Veneers
- Preventative Procedures
- Oral Cancer Screening
- Root Canal Treatment
- Tooth Polishing
- Dentures
- Inlays and Onlays
- Extractions

More details on each of these treatments can be found on our website

0% Finance Options

We want to make treatment options at Thrapston Dental Centre as convenient as possible for our patients to achieve their smile and oral health goals. To remove the obstacle of cost we are proud to offer a range of payment options including 0% payment plans (subject to status) to help you spread the cost of treatment, helping you invest in a beautiful smile while providing you with peace of mind.

Membership Plan

We also offer Membership Plans to help budget for your routine preventive dental care. Family Plans are also available. Please discuss with one of our team members to find out more.

DENTAL EMERGENCIES

Dental emergencies do happen and can be unpleasant and worrying. At Thrapston Dental Centre, we always try our best to see patients that have a dental emergency as quickly as possible. If you have a dental emergency outside of working hours, we will also arrange emergency treatment for you.

TREATMENT SERVICES

TEETH STRAIGHTENING

Orthodontics - Our in-house clinicians offer the best teeth straightening treatments available for the fastest, most predictable possible results.

Have you always wanted straighter teeth but don't want the hassle or unsightly appearance of traditional braces? Here at Thrapston Dental Centre, we offer our patients the Reveal® aligner solution to help you get the smile you've always dreamed of.

Using a series of transparent, lightweight plastic trays, Reveal® clear aligners gradually correct misaligned teeth to bring them into alignment. The trays are custom-made for each patient based on the mould of his or her teeth.

Unlike braces, clear aligners are nearly invisible. They are comfortable, removable, and easy to clean. In many cases, clear aligners require fewer dental appointments, and you don't need to visit an orthodontic specialist; your general dentist can provide your aligner treatment, saving you time and money.

Why choose Reveal® clear aligners?

- Uniquely Clear Material
- Fewer Attachments
- Clinician-Guided Treatment

Scan here for more information on Reveal

DENTAL HYGIENE

We recommend our patients visit our dental team regularly for maintenance appointments. This is the first step in preventive dental care and enables our dentists to detect possible dental problems that need to be addressed. Direct Access hygiene appointments are now available meaning you can visit without having to see a dentist first.

PERIODONTICS

Smile with Confidence. We understand the importance of having healthy gums which is why we are here to plan an effective, long-lasting bespoke treatment plan tailored to your individual clinical needs. Our team are highly qualified with years of experience in their respective fields and will always strive to save your teeth before looking at alternative options.

BOUTIQUE WHITENING

A bright white smile is easily achievable with Boutique Whitening, our preferred treatment for noticeable results.

Boutique By Day, whitens your smile with only 1 hour wear time per day. Alternatively, you can choose Boutique By Night, and whiten your teeth as you sleep.

We produce a custom designed whitening tray to hold the Boutique Whitening agent to achieve the desired whitening result. Please contact us for a complimentary tooth shade assessment to find out more.

SMILE MAKEOVERS

Don't hide your smile, allow us to bring out its natural beauty with cosmetic dentistry. Our team of talented clinicians will help formulate a bespoke treatment plan for your individual needs based on everything discussed in your consultation.

With popular treatment options such as Veneers and Cosmetic Bonding, we often develop a dental diagnostic wax-up that allows our dentists to provide a simulation of the procedure you're considering. It's essentially a model of what your dental work will look like.

SMILEFAST

SmileFast is the ground-breaking new development in Smile Design, Trial Smile preview, Refinement of the smile and Provision of Smile Makeovers.

SmileFast helps patients by informing and guiding the treatment planning, allowing them to quickly visualise their planned new smile, understand the journey and then deliver the life-changing results. SmileFast has expedited and simplified the process of smile delivery meaning you can reach the smile of your dreams quicker. To find out more how we can help design your smile, please let us know.

MEET THE TEAM

Dr. Haider Alaasam
General & Implant Dentist
GDC Number: 246939,
European University of Madrid

Dr Alaasam is a Spanish born dentist who qualified as a dental surgeon at the European University of Madrid in 2013.

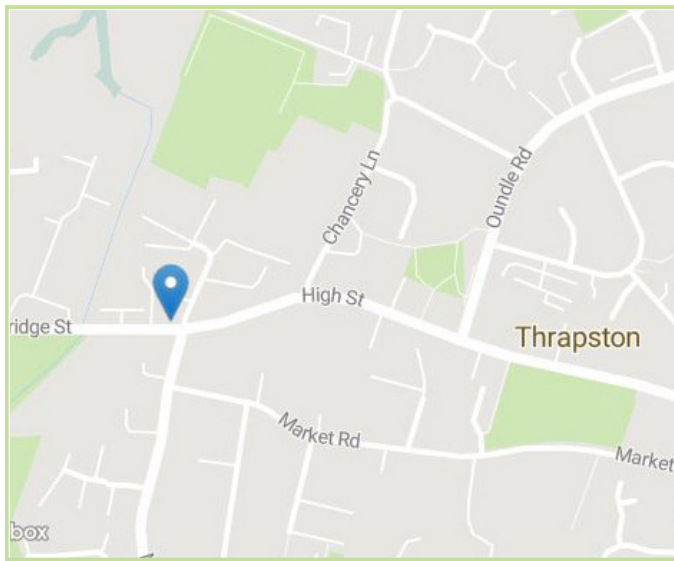

He has since moved to the UK and worked as a general dentist in various settings. He obtained further postgraduate training in Endodontics (root canal treatments) and is currently undergoing a Masters in Periodontology (gum treatment) which is where his passion lies. He provides a comprehensive range of non-surgical and surgical periodontal referral services.

He believes that a healthy mouth begins with a healthy foundation of bone and gums and wants to ensure that his patients teeth stay in place throughout their lifetime. He has a specialist understanding of the science of the mouth, teeth, jaw and gums as a whole, as well as a thorough knowledge of the different kinds of diseases that can manifest, their symptoms and suitable treatments. He aspires to deliver excellent dental results and to provide a comfortable and relaxing experience for his patients.

HOW TO FIND US

The practice is situated in the heart of Thrapston, next to The Plaza. This is comfortable and accessible by car from Bridge Street or from the A605 sign posted Thrapston onto Oundle Road, turn right onto High Street and continue until you find us on the right.

The most convenient car parking facilities are the street parking spaces opposite our practice.

2 Bridge Street, Thrapston, NN14 4JP
